

KVM and Serial Console Trade-In Program

Get the latest technology for your technology.

Replace your old KVM switches with the latest in KVM-over-IP technology and receive a discount of up to 40% off RRP.

Raritan's Dominion® KXII KVM-over-IP switch represents the best technology & value on the market today. Ground-breaking features standard on all models:

- Virtual Media on all Dominion KX II switches
- Absolute Mouse Synchronisation sets the standard in mouse performance
- Dual Gigabit Ethernet with automatic failover and
- Dual Power for industry-leading reliability

You'll also benefit from the Dominion SX, our enterprise-class serial-over-IP switch, with:

- The most secure serial console access and control in the market.
- Reduced downtime and Mean-Time-to-Repair by managing your console devices (routers, switches, servers) from anywhere.
- Models that support dual GigE ports, dual power sources, and a built-in modem, for the ultimate in availability and reliability.
- Plus new layers of security to protect data centers against network intruders.

The more you know, the better you can manage.

So get started now with this unprecedented trade-in offer.

What to do?

1. Contact Raritan on Sydney (02) 9029 2558, Melbourne (03) 9866 6887 or email sales.au@raritan.com to discuss the trade in offer and your KVM requirements.
2. Raritan will contact your preferred KVM supplier, who will in turn contact you to assist in the trade-in. If you do not have a preferred KVM supplier, Raritan will refer you to one of our accredited Partners.
3. Once you have installed your new Dominion KXII switches simply return your old KVM switches to your preferred supplier.

Conditions

- The number of Dominion KXII switches ordered must equal the number of old KVM switches traded in.
- This offer excludes existing Dominion KXII switches previously quoted & special-project pricing pre-registered with Raritan.
- Raritan reserves the right to discontinue or alter the terms of the promotion without notice.
